TOBACCO CONTROL

AN INTERNATIONAL JOURNAL

Editor: Ronald M Davis

TOBACCO CONTROL is a new quarterly scientific journal launched in March 1992 by the BMJ Publishing Group to consider all aspects of tobacco prevention and control.

The Journal aims to study:

- The nature and extent of tobacco use worldwide
- The effect of tobacco use on health, the economy, the environment and society.
- The efforts of the health community and health advocates to prevent and control tobacco use
- The activities of the tobacco industry and its allies to promote tobacco use

The editorial team includes regional editors from throughout the world, associate editors with expertise in special areas, and an editorial advisory board of leading tobacco researchers and tobacco control advocates .

Research Areas:

- Evaluation of smoking prevention and cessation programmes.
- Tracking and evaluation of tobacco control policies and legislation.
- Epidemiologic and behavioural research on tobacco use
- Health effects of smoking, smoking cessation, passive smoking and smokeless tobacco use.

Papers from Volume One:

- Trends in physicians' giving advice to stop smoking, United States, 1974-87
  E Gilpin, J Pierce, J Goodman, G Giovino, C Berry, D Burns
- Targeting of cigarette advertising in US magazines, 1959-86
  K E Warner, L M Goldenhar
- Recent developments in tobacco litigation, 1991
  R A Daynard
- Support for restricting smoking at workplaces in developing countries: a survey of Peace Corps staff
  T R Eng, S L Emont, T H van der Vlugt

Papers for submission should be sent to:
